

GREATER ATLANTA CRIMINALISTICS
EVIDENCE REPORT

Officer: Det. R. Wolfe Evidence Tag #: 20110323MD-Com64

Location: Resta Apartment, Biscayne Bay, Miami, Fl.

Notes: *This morning, the Miami-Dade Police Department raided an apartment they had reason to believe our suspect occupied during his time in South Florida. Unfortunately, the Miami-Dade officers were not the first to find the empty apartment after our suspect's departure. A student athlete from the University of Miami had been squatting in the apartment for two weeks. He has been taken into custody in connection with other offenses. His presence in the apartment tainted most of the evidence Miami-Dade CSI was able to recover. They were lucky to find a desktop computer that they hope might prove beneficial to the investigation. Detective Wolfe of the Miami-Dade CSI is handling the computer forensics. A keyboard was connected to a serial port on the computer. In the interest of time, Miami-Dade CSI has forwarded the attached photograph, which they believe you might be able to understand. There seems to be a difference between this keyboard and a standard model.*
